

How to become PEFC Certified

PEFC Chain of Custody certification enables you to demonstrate legal and sustainable sourcing of forest products to your customers.

PEFC Chain of Custody certification provides independently-verified assurance that the certified forest-based material contained in a product originates from sustainably managed forests. PEFC certification is available worldwide and open to all companies that manufacture, process, trade or sell forest-based products. PEFC Chain of Custody certificates are issued by independent Certification Bodies.

Step 5: Sign your logo usage/ trademark contract to get access to the PEFC labels.

III. Communicate!

Step 6: Use the PEFC label on certified products to demonstrate that you source responsibly.
