Foreword

The PEFC Council (the Programme for the Endorsement of Forest Certification schemes) is a worldwide organisation promoting sustainable forest management through forest certification and labelling of forest based products. Products with a PEFC claim and / or label deliver confidence that the raw material originates in sustainably managed forest.

The PEFC Council provides endorsement of national forest certification systems which are required to comply with the PEFC Council requirements subject to regular evaluations.

This document alters and replaces Guide GD 1006:2010, Notification of Certification Bodies operating Chain of Custody Certification in Countries without Authorised Bodies.

This document enters into force on 1st April 2013. The transition date for notification fees charged for PEFC chain of custody certificates issued under the scope of PEFC Council notification before this date is 1st January 2014.

Introduction

PEFC certification shall be carried out by third party certification bodies, which are accredited by a national accreditation body which is a member or a part of the International Accreditation Forum (IAF) in order to demonstrate its competence and independence. PEFC Notification establishes a necessary link between the accredited certification bodies and the scheme owner (PEFC) and allows certification bodies to issue PEFC recognised certificates.

1 Scope

This document describes procedures for the issuance of PEFC notification to certification bodies operating PEFC chain of custody certification in countries without PEFC authorised bodies. In countries with authorised bodies notification will be obtained from the authorised body directly

Note: An updated list of countries with authorised bodies is available from the PEFC Council.
