Through monitoring of forest health at regional level, and communicating of results at the FMU level, the objective of the requirement is met without the necessity to carry out the individual monitoring of each forest management unit. d) require record-keeping that provides evidence of compliance with the requirements of the forest management standards;	YES	PEFC FI 1002: 4
e) specify “100% PEFC certified”, or another system specific claim, as claim to be used to communicate the origin of products in an area covered by the standard to customers with a PEFC chain of custody; Note: System specific claims of PEFC endorsed standards and PEFC Council approved abbreviations of such claims and the claim “100% PEFC certified”, and their translations into languages other than English, are published online on the PEFC website www.pefc.org .
