 - <https://zero.no/>

Observers:

- Norwegian Environment Agency (Miljødirektoratet)
 - The Norwegian Environment Agency works for a clean and rich environment. Our main tasks are to reduce greenhouse gas emissions, manage Norwegian nature and prevent pollution. They are a government administrative body under the Ministry of Climate and the Environment
 - <https://www.miljodirektoratet.no/>
- Norwegian Agriculture Agency (Landbruksdirektoratet)
 - The Agency shall take care of directorate tasks for the Ministry of Agriculture and Food (LMD). The Agency provides professional advice, implements agricultural policy and facilitates agriculture and the food industry.
- NIBIO - Norwegian Institute of Bioeconomy Research
 - NIBIO is one of the largest research institutes in Norway with approximately 700 employees. We contribute to food security and safety, sustainable resource management, innovation and value creation through research and knowledge production.
 - <https://nibio.no/en>
- NINA - Norwegian Institute for Nature Research (NINA)
 - is an independent foundation that researches nature and the interaction between nature and society. NINA's activities include both research and investigation, environmental monitoring, consultancy and evaluation. NINA has a wide range of expertise and experience with both natural scientists and social scientists in the staff. We have knowledge of the species, nature types, society's use of nature and the connections with the major driving forces in nature.
 - <https://www.nina.no/>
- Forestry Extension Institute (Skogkurs)
 - Their main purpose is to provide continuing education and training in the forestry sector and in forestry related fields, as well as to heighten public awareness to the importance of forestry. The institute is a non-governmental organization and is organised as a partnership with 37 forestry organisations and scientific institutions forming the membership.
 - <https://skogkurs.no/>
- Statsbygg - Norwegian government's building commissioner
 - is the Norwegian government's building commissioner, property manager and developer. They also advise the government in construction and property affairs. Their role is to provide and maintain quality public facilities and workplaces for other state agencies. They also function as an advisor during concept development and planning phases of certain projects.
